NOTES

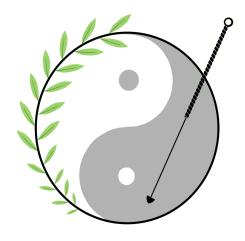

AcuDetox/AcuWellness

Auricular (Ear) Acupuncture Detoxification is a specific acupuncture protocol that is used after trauma to reduce mental health symptoms such as anxiety & depression, or sleep problems, stress, PTSD, trauma and to support general well-being. AcuDetox is used as a crisis intervention treatment following disasters world-wide to prevent PTSD and to support resilience. The NADA (National Acupuncture Detoxification Association) protocol involves the placement of 5 sterile needles in each ear. which are retained for approximately 20-40 minutes.
